

# What We Teach

Our main goal is to introduce kids to the game of golf. In the junior clinics we start with basic safety instruction and familiarize our students with etiquette of the game. Beginning slowly and catering to the individual needs of each child, we teach grip, stance, swing and posture as well as the fundamentals of a golf swing including chipping and putting.

In our clinics the first priority of our instructors is to ensure students feel comfortable and have fun while developing a love for the game.
